

WPS-HP201

Hyshare Pro Wireless Presentation System

Hyshare Pro is a high-performance Wireless Presentation System which offers a smooth wireless casting experience, leaving the users free from messy cables. With its simple installation and setup, the user is free to concentrate on their presentation.

Hyshare Pro provides a user-friendly interface: just launch the Hyshare Pro App, or connect via web-browser, then the users can start a presentation instantly. Hyshare Pro supports cross-platform collaboration and communication, including Windows, macOS, Android, and iOS systems.

Hyshare Pro has advanced collaboration features, such as White Board, Annotation, and Screen Capture. In addition to this, up to 20 devices can connect via "Remote View" to simultaneously view the main presentation.

Moderation mode allows an administrator to allow, or block connected users/devices as required.

USB connectivity to interactive displays allows for touchback functionality, allowing the user to control the laptop via the touch display.
